

Fuel Storage Tanks –

Recycle – Empty fuel storage tanks can be taken to scrap metal dealers or salvage yards for recycling. Call your local scrap metal dealer to make sure they will accept the tanks. Some will not. Tanks brought to a St. Louis County disposal facility for scrap metal recycling must be completely empty and clean.

Businesses: Salvage operators must notify the Minnesota Pollution Control Agency at 1-800-657-3864 if underground storage tanks are to be disturbed because the contents may be considered hazardous.

Scrap metals can be recycled at the following locations:

(The County does not pay for your metal.)
